# GREEN COLORS

*Le nostre nuove tinte ispirate ai toni della natura.*

*Magnolia*

*Amazzonite*

*Giada*

*Calcedonio*

*Tanzanite*

*Ematite*

*Lillà*

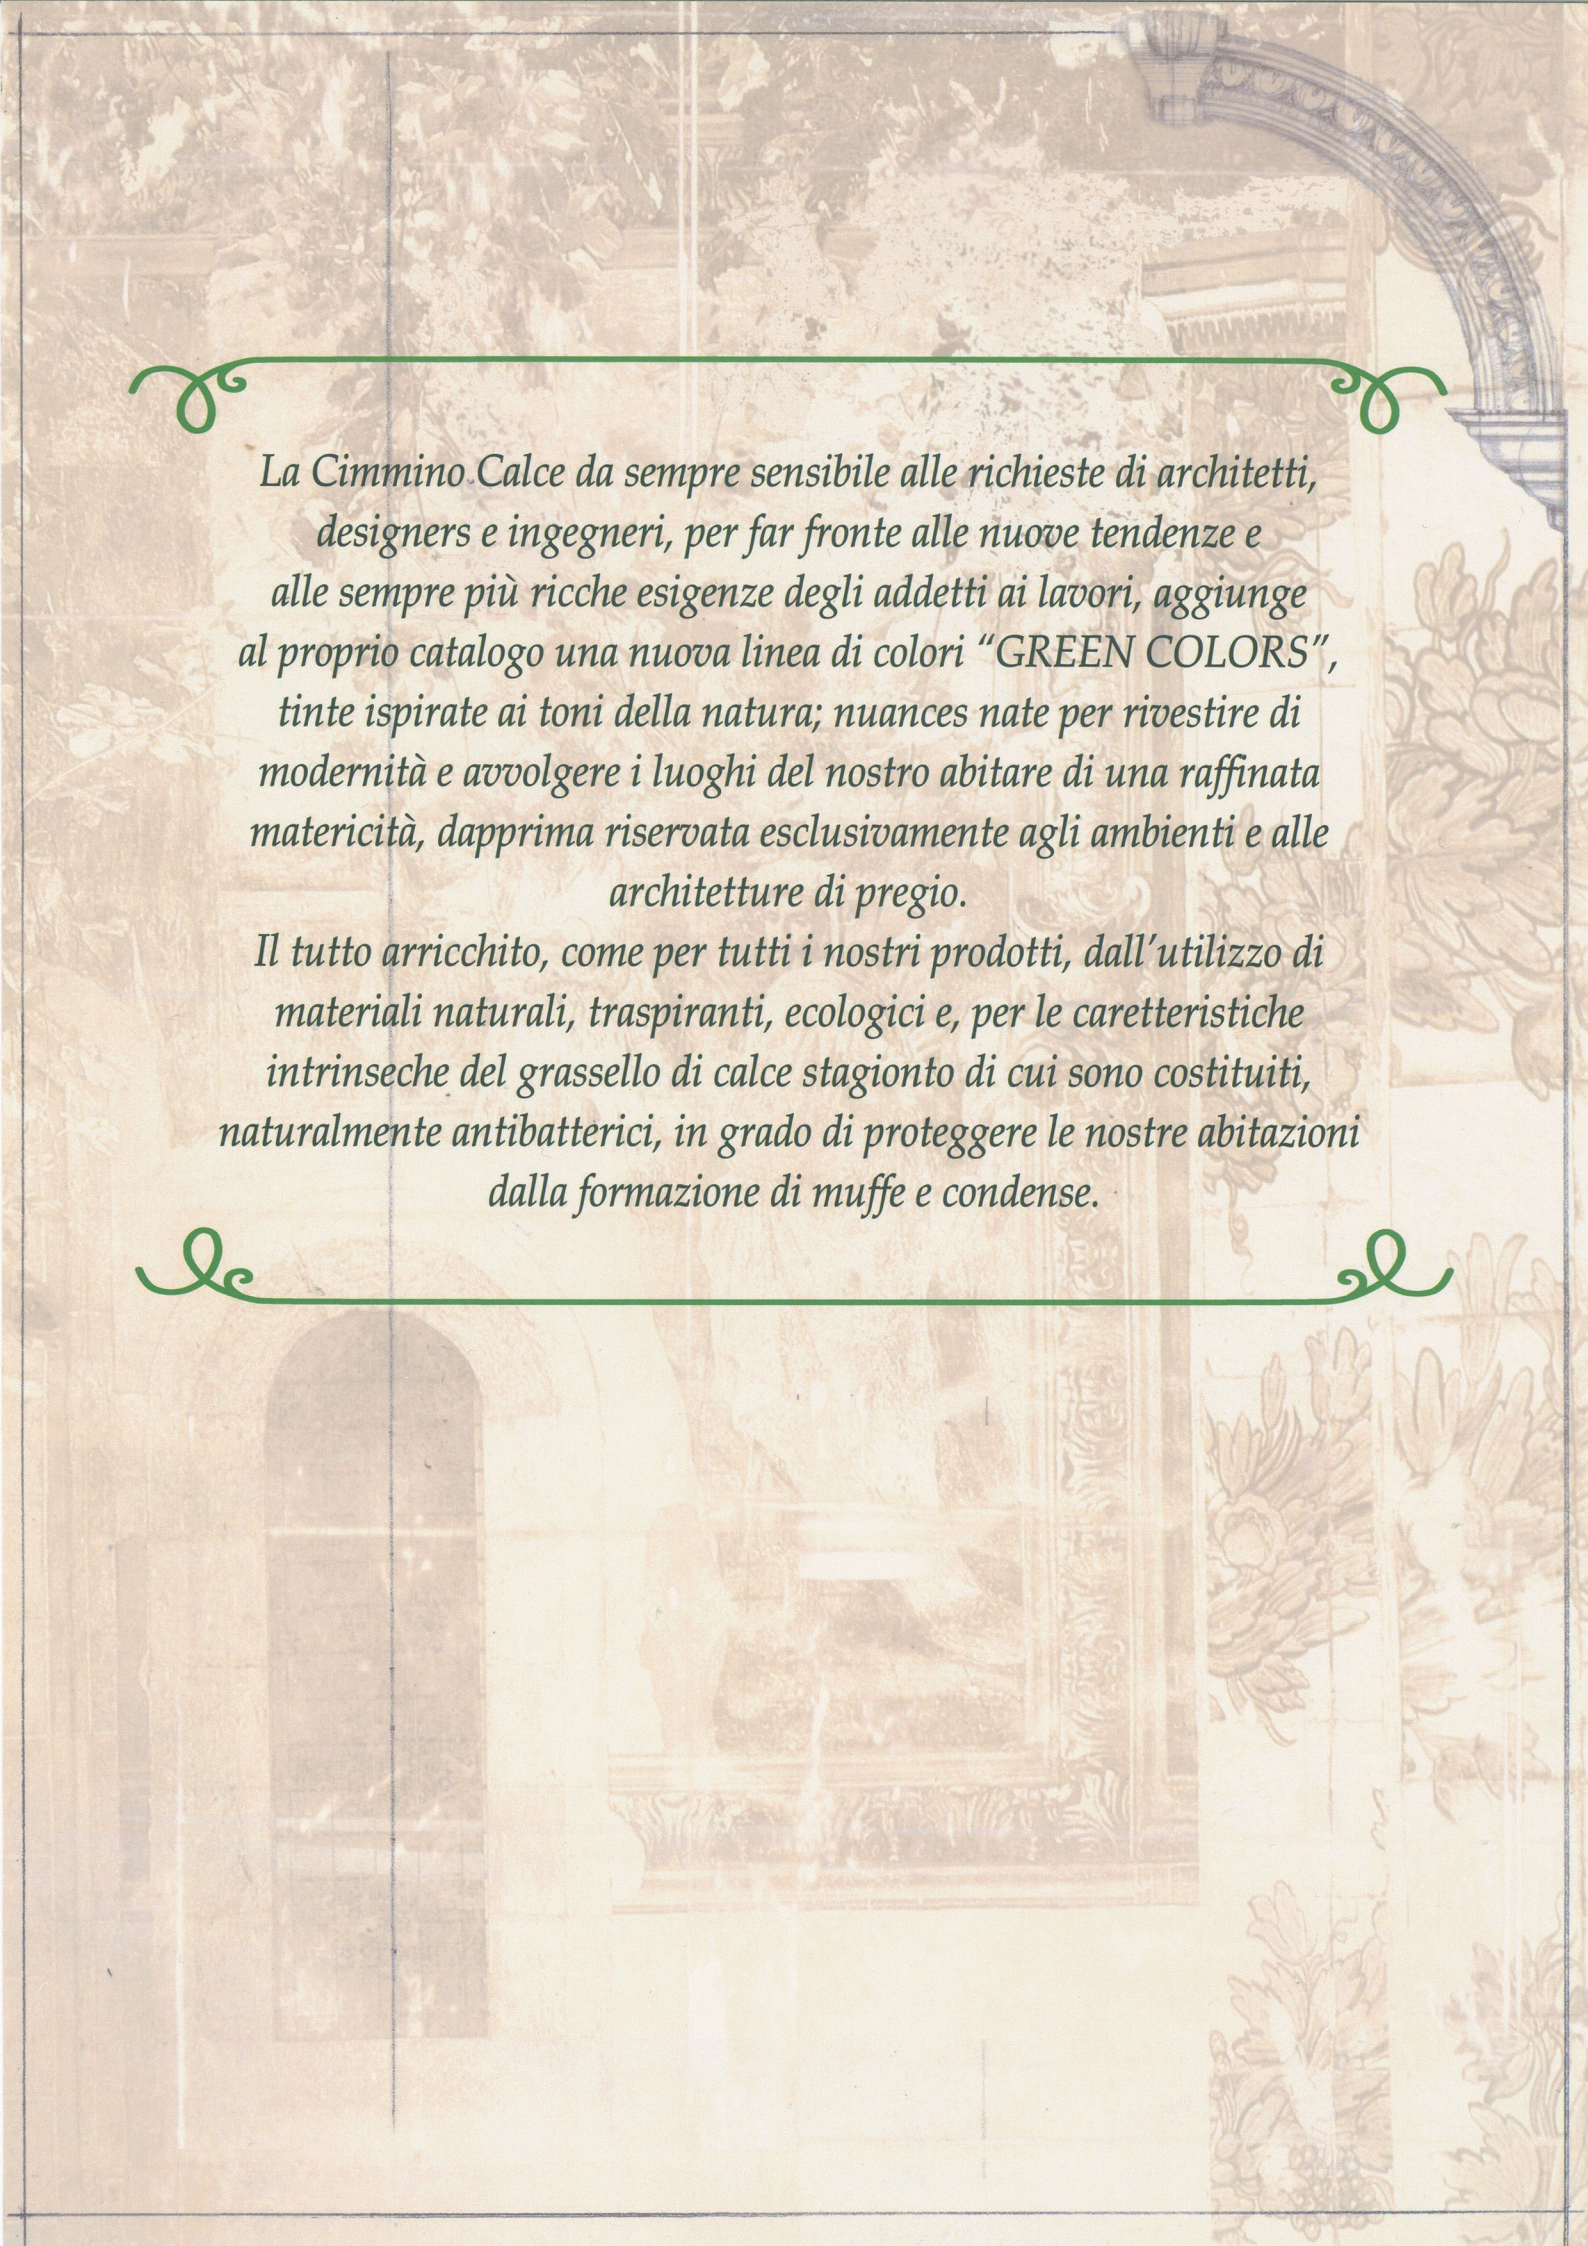

*Glicine*

*Lavanda*

*La Cimmino Calce da sempre sensibile alle richieste di architetti, designers e ingegneri, per far fronte alle nuove tendenze e alle sempre più ricche esigenze degli addetti ai lavori, aggiunge al proprio catalogo una nuova linea di colori "GREEN COLORS", tinte ispirate ai toni della natura; nuances nate per rivestire di modernità e avvolgere i luoghi del nostro abitare di una raffinata matericità, dapprima riservata esclusivamente agli ambienti e alle architetture di pregio.*

*Il tutto arricchito, come per tutti i nostri prodotti, dall'utilizzo di materiali naturali, traspiranti, ecologici e, per le caratteristiche intrinseche del grassello di calce stagionato di cui sono costituiti, naturalmente antibatterici, in grado di proteggere le nostre abitazioni dalla formazione di muffe e condense.*
